

Hanford groundwater monitoring REPA support

Dave Bartus to: Jack Boller, Amberet Green

04/02/2012 06:19 PM

Jack/Amberet:

In advance of getting formal notification that funds are available for this work, I've prepared a draft performance work statement. Please take a look at this and help me with comments/feedback. One specific issue I'll need help on is ensuring that the proposed work will fit into the available funds. While I've been pretty specific in what we're looking for, both EPA and the contractor will have to pay very close attention to scope/schedule/budget management if this exercise is to be successful. My concern is that the contractor could easily make a proposal based on this work statement well beyond our available budget.

Thanks!

Dave
